Animals are hearts on legs, and they live and evolve emotionally. Totally present in their reality, the animals that show up in your life, whether living in your home, on your farm or ranch, or in the wild (whether downtown or in the woods), act as a mirror of the emotions going on in your life.

They take on and filter your emotional baggage through their hearts with care and compassion, until you are willing to take responsibility for it. This is their gift to you, freely given. AND, you can make their burden lighter by getting in touch with and being responsible for your own feelings and expressing your emotions as they arise.

The **featherhawk** Animal Kingdom Essences are made by connecting with the deva of each animal and invoking its life force into water. These healing frequencies help you take responsibility for your emotions, expressing them clearly and compassionately from your heart and soul.

Your animal companions serve you as an individual, your family, and other social groups. Domesticated animals serve the larger communities. Wild animals accept the burdens of mass consciousness. (All animals willingly perform these tasks --- this is a general grouping of primary function.) They come to your aid willingly and without a moment's hesitation.

You have everything to gain by emulating their integrity, compassion and joyful embrace of Life. The Animal Kingdom essences help you grow into this new era of personal responsibility for your feelings, helping you get in touch with and express your emotions with clarity and compassion.

Please note: *no animals are captured or harmed in the making of any **featherhawk** essence. There are no animal ingredients, and there is no animal testing.*
